

MARKET DEVELOPMENT RESEARCHER – STUDENT ASSISTANT

Join a fast-growing company to drive health science into the future through artificial intelligence image analysis

As our new Market Development Researcher, you will get a chance to learn about biomedical research markets and contribute to a motivated and dynamic sales team as an integral part of the organization's success.

This role requires a time commitment of 8-15 hours a week. Your focus will be online research to help the sales organization launch a range of targeted campaigns. This will involve a diligent and creative approach to gather functional market data for markets segments such as Biopharma Research, Academic Medical Centers, and Digital Pathology Laboratories.

You will report to a Team Leader, and you will be part of a growing sales development organization in both the United States and Europe.

We work from a pragmatic and educational approach with the focus on connecting to our customers through scientific knowledge which builds credibility, relationships, and presence both internally and externally. The right candidate is eager to succeed and enjoys being part of the strong, innovative, and entrepreneurial spirit that is the hallmark of Visiopharm.

Your tasks would be;

- Focused internet research with a creative approach to market analysis.
- Work in collaboration with the Sales Development Team to optimize data and workflow.
- Interactive efforts with Sales Quality for accurate data collection and CRM data entry.

Qualifications;

The right person likes to work analytically and creatively, plus can take direction and perform with minimal constructive input. You must be eager to succeed with a strong sense of teamwork and enjoy being a part of the innovative and entrepreneurial spirit that is the trademark of Visiopharm.

Knowledge within healthcare or life sciences highly is desired, and but more important is your networking skills through superb verbal, phone & written communication.

Use your competitive nature and positive team-oriented attitude to win the deals:

- Advanced internet search capabilities
- Accurate data entry
- Proficiency in Excel
- Flexible schedule that allows ~8-15 hours/ week on regular intervals
- Ability to work in a dynamic, interactive work environment

About the team

Visiopharm is contributing to find the right cancer treatment for the right patient at the right time (precision medicine). We do this by offering a suite of software tools for tissue-based cancer diagnostics. These tools are based on digital image analysis, the latest break-throughs in AI and Deep Learning, combined with a deep understanding of diagnostic workflows in the pathology lab.

Over the past few years, Visiopharm has evolved into a global company with more than 60 people working across 30 countries. Over the last two years we have doublet the size of people and we are still growing, We have high ambitions for the future.

Visiopharm A/S is headquartered in Medicon Valley, Denmark, DTU Science Park in Hørsholm, and has branch offices in Sweden, UK and a North American office in Broomfield, Colorado.

Location

You will be working from our HQ in Hørsholm.
